### Job Description

#### ROLE AND RESPONSIBILITIES

- Writing case reports.
- Reading, photographing, labeling pathology slides for research.
- Writing of systematic reviews of the literature.
- Other laboratory (research or clinical) duties.
- The goal is to provide opportunities for learning to benefit both the faculty and the students. To that end, we intend to provide enough scholarly activity to support a poster at a meeting and possibly a published manuscript.

#### QUALIFICATIONS AND EDUCATION REQUIREMENTS

We are looking for students with great attention to detail and who are interested in pathology as a possible career choice. That is not required, as many fields of medicine and research intersect in the field of pathology.

#### PREFERRED SKILLS

Attention to detail, willingness to learn microscopy, a broad willingness to learn in general.
